EDUCATION

Guru Gobind Singh Indraprastha University, New Delhi

Bachelor of Technology (CSE) - 8.78

08/2021 - 06/2025

WORK EXPERIENCE

Elevate Labs

Data Analyst

09/2025 - Present

- Working on data analytics tasks and developing ML Models using Python to derive actionable insights.

Skill Chase Pvt. Ltd.

Data Analyst

08/2024 - 10/2024

- Utilized web scraping techniques to extract structured data from real-world websites.
- Used DAX, slicers, and visual analytics to uncover peak sales trends and enhance business.
- Cleaned and analyzed a dataset of 10,000+ apps to uncover trends in ratings, reviews, pricing etc.

TRAINING

Data Analytics (SQL) Qspider's

- Leveraged Python and Excel for comprehensive data analysis tasks effectively.
- Utilized MySQL for Database management with advance window function correlated queries.

PROJECTS

Fraud Detection in Financial Transactions (ML Project) [🔗](#)

- Built an ML model to detect fraudulent transactions on a dataset (6M+ records).
- Performed data cleaning, feature engineering, EDA to identify fraud patterns, threshold tuning.
- Trained and optimized models (Logistic Regression, Random Forest, XGBoost) for fraud detection.

Retail Business Analytics & Insights [🔗](#)

- Tools Used:** MS Excel, MySQL, Python (Pandas, Matplotlib, Seaborn), Power BI
- Developed SQL queries for aggregation, customer segmentation (RFM), and outlier detection.
- Built Dashboards with KPIs and drilldowns to uncover insights on regions, discounts, and inventory.
- Designed a full data pipeline covering data cleaning, SQL modeling, Python-based EDA, and Power BI.

Healthcare Patients NoShow Prediction (ML Project) [🔗](#)

- Predict and reduce missed medical appointments using Python Libraries and Power BI.
- Automated data cleaning and feature engineering, enhanced model accuracy by tuning threshold.

Airbnb ROI & Profitability Analysis [🔗](#)

- Analyzed Airbnb listings and identify the most profitable locations for property investment estimate return on investment (ROI) and revenue potential.
- Data Analysis and Transformation: Data cleaning, Data Standardization, EDA and Tableau dashboard.

SKILLS

- Languages:** Java, Python, SQL
- Databases & Cloud:** MySQL, Snowflake, Amazon S3, Azure Blob
- Technical Skills:** Data Analysis, Data Cleaning and Pre-processing, Statistical Analysis, Data Wrangling
- Data Analysis & Visualization:** MS Excel, Power Bi, Tableau, Python (Pandas, NumPy, SciPy, Matplotlib)
- Soft Skills:** Analytical Skills & Critical Thinking, Problem Solving, Communication Skills, Teamwork & Collaboration, Time Management, Strong Work Ethic

CERTIFICATE

- Certification:** Artificial Intelligence (IBM), Data Visualization (Tata), Snowflake Platform, Data Analysis (Deloitte), McKinsey & Company.
- Research Participation:** Co-authored a research paper on Bias in AI, presented at SVBRISI-2025.
